HOLT, NEAR THE COFFEE-HOUSE.

Within a day or two we have had five deserters from the advanced posts of the enemy; two of them are sensible enough talking fellows; one that came in this morning particularly so. They have brought news of the enemy killed and wounded, amounting to 1052; most of the wounded in a dangerous way. They have had to march provisionally since the affair of Noddy's Island; and are not like to have any serious fighting for it. One of the deserters went off last night, with leave, to Philadelphia; he is a grenadier of the Royal Irish. The deserters say that yesterday morning General Gage surrendered, in the course of the day, his command of the army to General Howe, and now acts only as civil governor—that he is impounded and defiled by the whole army.—That Howe is much censured for his mode of attack on our lines last month.—That their artillery was wretchedly served; and what is more strange, that all their force caters a

which they brought out, were 12 pounds and they took out only 9 pounds cannon, so that when our people were obliged to quit their lines, the enemy had not one round of artillery cartridges left. That young Richardson was the first person who mounted our parapet; you know him well, he is of the 18th, or Royal Irish; he is dangerously wounded. That their number of 4000 men is 4000 in Boston, and 2200 on Bunker's Hill. That they despair of forcing our lines; but talk of getting round us if they can. That 3 full of transports and one frigate are gone to Fisher's Island and other places in the Sound, murdering with 100 men. That they have erected a large bomb battery on Bunker's Hill, and amongst others, two 18 inch French mortars. That on Monday morning, yesterday, they were 18 pound shot into their encampment on the top of Bunker's Hill. That the generals of the Royal Welsh Fusiliers, amounted to 40 at the attack last month, and are now reduced to 9 men. That the 1st regiment had 22 grenadiers killed out of 391. That the inhabitants of Boston are old and miserably old. That they will be soon released, because provisions begin to be scarce. That the army begin to clamour for their pay. That there is no salt, and bills will not sell for 10 per cent. discount. That the resolution of the Congress against government is, was wise, and has directed the enemy exceedingly. The Reading company of rifle men, camped on Tuesday; they were hourly expected and much wanted. We have frequently thrown into their lines, on the wings of the wind, at night, hand-bills, and propellers to lead to a few nights. These bills are blown into their camp, and get into the hands of their soldiers without the officers being able to prevent it. Major Bruce complained, at an interview the other day, of such usage. We returned his denials, saying our enemies had their bills, two or three, having left in a day or two before, by his, or some other officer's means.

We expect they will begin to bombard us in a day or two; they cannot but, but benefit us; they will by such means harden our men, and encourage their own. This we have experienced by their bombardment of Roxbury.

June 19. Yesterday arrived here an Englishman, in a schooner from Philadelphia, loaded with bread and flour. It is currently reported, and I believe it is true, that the cleared out from Philadelphia for the West Indies, and that as he had sent his family there some time past, the inhabitants did suspect his having a design of going elsewhere.

"I am informed, that the people at the northern part of this island are now digging up seed potatoes for bread."

There is advice from Canada, that Gov. Carlton, having in vain endeavoured by fair means to engage the Canadians in the service against the colonies, he attempted to compel them by force, on which there was an insurrection of 3000 men to oppose that force; and that they did not disperse till they received assurances that no compulsion should be used. It is said they are determined to observe a strict neutrality.

August 14. Corporal Cruise, of the 18th, now prisoner at Boston, has sent a letter to his comrades in the camp, informing that he was treated kindly by the Regulars. The address to the British, which has been printed at Cambridge, and dispersed among the militia, is, has the following endorsement.

FRANCIS HILL. CORNER'S HILL. I. Seven shillings a month. II. Three pence a day. III. Fresh provisions. IV. Rotten salt pork and in plenty. V. Health. VI. The Scurvy. VII. Freedom, ease, IV. Slavery, beggary, and want.

Extract of a letter from Cambridge, Aug. 3. "Since the 11th men arrived they have killed 6 or 8 officers of distinction on the lines of Charlestown; a son of Lord Holland is also dangerously wounded. We have the names of the officers in camp. For some days past Gen. Gage has been permitting the people to come out of Boston, stripped of every thing, and what they call a pocket, to search every person's pocket, that no man carries with him more than five pounds. The inhabitants are extremely distressed, and the troops almost as much. Almost all their wounded at Bunker's Hill and elsewhere are dead, and all the Provincials who were prisoners with them, are dead. They say our balls were poisoned, but the bad provision and the fever, which prevails among them, is a more probable and charitable way of accounting for the death of the wounded. Certainly there never was any poisoned balls used. Some of their officers are still very angry, and high and big, but the more sensible men among them are dispirited, and say that it is in vain to attempt any thing, for if they should attempt our lines, success is uncertain; and should they succeed, the enemy will rally again on the next hills, increase in number and in rage, and

will harrahs them to death; and those that may happen to survive the conflict at the lines; that they cannot do as in Europe, fight one or two battles in a season, and then lie still and quiet, and refresh on good provisions, forage, &c. and get recruited from the neighbourhood; here they cannot be succoured in the course of months.

"The troops are universally discontented; both officers and men heartily abusing Mr. Gage and the Tories; not one of the latter dare be seen among them. It has been seriously talked of to plunder the town of Boston, and desert it. If they are not soon recruited, I shall not be disappointed at the sight. Eight or ten of their men have lately deserted to us, and say, hundreds will do the same the first opportunity. By deserters, inhabitants of Boston, &c. it is agreed that the enemy have not so many men now as at the first of April. Their losses, killed and wounded have been great, and by sickness greater still. Those troops, who have been here three or four years, have not been sickly; but those who have come lately, have been very sickly indeed, and now remain so; I believe most of them will be swept off by sickness, if we fire still, and only look on, and keep them from fresh provisions."

Last night arrived here, the Georgia Packet, from Georgia, in which came passengers; she Hon. John Houston, Archibald Bullock, Noble Wimbury Jones, Lyman Hall, and Dr. Zubly. Delegates appointed to represent that Colony in the Continental Congress.

ON D O N. The Virgin troops are collecting, in order to form a respectable army ready to march on occasion may demand.

When the tender, humane, delicate King of Denmark, was acquainted with the death of his amiable, much-loved Queen, it had such an effect on him, that he expressed his feelings in words the meaning of which was to the following effect: "This is a loss; but had I prepared a few days before, I should have saved twelve thousand pounds by it." It seems this alluded to the remittance of that sum for the half yearly allowance just before.

Extract of a letter from Portsmouth, June 7. "Sailed from Spithead, the 1st of June, a man of war, with Admiral Duff, to New Zealand, who is to command at that place, and the Charlotte, the ship of the line."

A fool of the Ministry was John Sainsbury giving his mother no account of what intelligence he had gleaned in his daily perambulation, relative to the Americans, in which, having often occasion to make mention of them, was several times interrupted by his mother, who said, "Wherever you have occasion to make mention of these scoundrels, always eatting them by the word, the Rebels, not the Americans."

When the last packet left Calcutta, two large vessels were loading with frelocks and ammunition. But for what place they were destined it was not known.

Monday sailed from the Downs the Friendship, T.enthum, and Fortitude, with troops for Boston.

They write from Dunkirk, that upwards of two hundred British officers, with their wives and families, arrived there in vessels since January last, to seek employment in the manufactures of France.

A letter from Berlin says, it is certain that the Hereditary Prince of Brunswick has entered into the King of Prussia's service, with the rank of General of foot.

A person just arrived from Holland says, there is great talk there of sending out four thousand land forces with all expedition, to reinforce the Dutch colony of Surinam.

Extract of a letter from the Magus. "From the many warlike preparations now making by the Emperor of Germany, and the King of Prussia, between whom there is the strictest unity and alliance, it is imagined that they will shortly put in force their favorite scheme of annihilating the ancient system of government in Germany, and establish out of its ruins two formidable monarchies."

Extract of a letter from Danzig. "The King of Prussia drops an expression lately which has occasioned infinite speculation here. In a public conversation he observed, 'The Emperor is very young, and I am very old; yet the time may not be far distant when he and I may divide Germany between us.' This expression was uttered with an air seemingly careless; but those who know in what manner the King of Prussia speaks his mind, will not forget it."

Thursday the Russian and Swedish Ambassadors, with their ladies, took leave of his Majesty, and on Tuesday they will set out by way of Paris, on their return home.

June 10. We are assured from good authority, that administration are in possession of genuine dispatches from Boston, whatever may be their motive for withholding the contents from the public.

A late Governor of the Massachusetts Bay was sent for express, to advise in the present alarming state of America. It shows consummate wisdom in asking the opinion of a man who has constantly deceived this country, and whose misrepresentations have ended in the blood, instead of the slavery, as he intended, of his countrymen. Old as he is, he may live to suffer for, if not repent, of his wickedness.

We are informed that four vessels, containing about 400 emigrants, have sailed for America, from 1st Glasgow and Greenock, in the course of the last and preceding week. Most of these emigrants are from the North Highlands; and it is said, two vessels are sailed for that country, in order to carry over more.

June 10. The Lord's Lieutenants of all the counties in England, Scotland, and Wales, have received instructions for giving in a complete list of the effluents, subalterns, and private men in their several corps at the War Office.

June 12. The shedding of blood is now commenced in America. It has been long repeatedly foretold to the present Tory Administration, but they delight in blood. It has been remarked, that the Court never looked more gay, than on the receipt of the late news from Boston. But while they are thus enjoying their sanguinary schemes, the public will remember, that Lord Chatham's proposition for preventing the effusion of blood, was treated by the Ministry with the most marked and insolent contempt. When the remembrance from the city lamented, at the foot of the throne, that the blood of his Majesty's subjects would be the consequence of persevering in their oppressive measures against our fellow subjects in America; the courtiers burst out into a fit of laughter. "These things will be remembered, when the blood they have wickedly shed is visited upon their heads, and they are overwhelmed by the popular vengeance they have provoked."

WILLIAMSBURG, July 31. Information having been received, that a man of war, a people carried off a sum of money from the Custom house at Hampton, amounting to upwards of 9000. A party of volunteers in this city went and secured the following sums of public money, 72,360l. in the Receiver and Auditor General's offices; 314,144. Paid office money; and about 1000l. in the Naval Office of the upper district of James River.

CAMBRIDGE, August 10. Our People have taken two or three of the Enemy's Vessels at Machias, at the Railroad, with a Number of Prisoners, among whom is Ichabod Jones, a well known Tory, who was brought to Town Yesterday, and put into Custody of the Main Guard. The other Prisoners, we are informed, are on the Road, and may be hourly expected.

We hear from Cape Ann, that a Vessel bound in there from the West Indies, being discovered off that Harbour last Tuesday, several of the inhabitants went off in a boat to visit in bringing her in. Soon after, about 30 armed Men, from the Mass. or War commanded by Capt. Lindzee, boarded and took Possession of the Vessel; but the running aground on the Cape, was vigorously attacked by a Number of Men from the Town of Gloucester who soon obliged the Enemy to give up the Vessel to the proper Owners, and to surrender themselves Prisoners. The whole Number was immediately sent to Ipswich Goal, in which 24 of them were confined. The Rest (4 or 5 in Number) were discharged, it appearing that they had been actually forced into the Enemy's Service. Lindzee was so enraged that he fired several Cannon Shots into the Town of Gloucester, but did little Damage.

WORCESTER, August 9. Extract of a letter from a Gentleman in Cambridge, dated August 8th, to the Publisher hereof.

"Mr. Thomas, I have seen Mr. P., who left Boston last Friday evening, who informs me it is very sickly both among the inhabitants and soldiery; that many of the inhabitants die broken hearted; that the enemy have entirely dismantled Castle William, undermined the walls and intend blowing them up; that several officers are embarked and sailed for England, as he supposes, to give a true state of facts; that several of the most wanted, the enemy have broke open several cellars and took weighing tubs, empty casks, and all the wood they could find to make fire to cook with, and tore all the rope walks down for the same purpose; and that strict orders are given, that no mechanic of any kind whatever should leave the town."

NEWPORT, August 7. Last Thursday morning the ships Rose, and Swan, sailed from this harbour, and carried with them a brig belonging to William Tweedy, of this town, loaded with molasses, a sloop belonging to Connecticut, loaded with molasses, and a sloop freighted with sugar and molasses for New York;

these vessels, we hear, were sent to Boston; a brig and sloop belonging to Col. Joseph Wanton, of this town, and a sloop belonging to Messrs. Charles Wickham, Robert Stoddard, and Benjamin Hicks, of this town, with similar cargoes, were left behind, and released. The above vessels all arrived here, from the West Indies, within about a week before. [Impartiality]

A gentleman from the American camp says—Last Wednesday, some rifle men, on Charlestown side, shot an officer of note in the ministerial service, supposed to be Major Small, or Bruce, and killed 3 men on board a ship in Charlestown ferry, at the distance of full half a mile; that General Gage had lately sent 3 armed schooners to Machias, or to some place near it, with cash to buy live stock, and gave orders to take the stock by force if the inhabitants would not sell it, which they did refuse, when the schooner's people attempted to take off the stock; upon which the inhabitants rose, made all the men prisoners, killed on the schooners and cash, and shared about 60 sterling a man.

Yesterday's night died, and the next day were interred the remains of Mrs. Dawley, of this town; this lady was so frightened on the night of the 18th of July, when the men of war threatened to fire on the town, that she went into strong convulsions, and continued in violent fits; and very delicious, till she died.

Last week a gentleman came to town from Connecticut, who exhibited several samples of salt petre, of excellent quality, lately made in that colony, where, as well as in the other colonies, a number of works are erecting for making that useful article, and it is not doubted, but there will soon be a sufficient quantity procured to supply the whole continent for making as much gun power as will be wanted.

LAST Tuesday morning between eight and nine o'clock between Beckman's Ship and Dover street, was dropped a Pocket Book, which was seen to be picked up at the corner of Jack's Slip, by a lad who appeared by his dress to be a Merchant's Clerk; wore a Brown Coat, a white Waistcoat and Breaches, and had his hair tied behind. Three Sailors who were going by, and saw him take up the Pocket Book, cried halloo, he had something to put them off, and walked up the Market.

Whoever delivers the Paper, to the printer or owner, may as a Reward, keep the two Half Joes in the Pocket Book, which contained all the Money and Writings the Owner had in the World.

NEW-LONDON, August 11.

Last Lord's day morning about five o'clock, we discovered nine ships, one brig, one sloop, one schooner, and two ships beating up this harbour, with the wind at N. E. which greatly alarmed the inhabitants of this town, and they immediately sent off an express to alarm the neighbouring towns, that they might get themselves in readiness to march where ever they might be wanted;—but in a few hours it was discovered that they were bound to Fisher's Island, to take off the stock, which they effected by the next morning:—it consisted of 130 sheep, three milk cows, one pair of working oxen, about 25 young cattle, and 10 hogs. (All the best that was fit for market was taken off the day before.) As soon as they came to anchor, an express was sent off to those towns that had before been notified, to let them know the situation of the fleet, and to recommend their being in readiness, as it was uncertain where they would proceed next.—On Tuesday morning they sailed for Gardiner's Island, and anchored on the east side, and were yesterday taking off the stock.

We hear from Westmoreland, in the western part of this colony, that last Thursday night about 50 Indians of the Six Nations came to that place, and incamped at a small distance from the settlement; the next day they came in and delivered a message, which was to this purpose.—That they were fore to hear of the difference which subsisted between Great Britain and the Colonies.—That they should not take up the hatchet on either Side.—That they meant to be at peace with the English as long as the stream ran down the Dutchess-hannah river.—That should differences in future arise between us and them, they would try every gentle and healing measure to obtain redress of the grievance.—That as Col. Guy Johnson had left his habitation, and they were destitute of a Superintendent, they desired Col. Butler to take upon him that trust; and that the place for holding their future Congress might be Westmoreland.

Extract of a letter from Cambridge, July 31.
With respect to the small pox being here, it is utterly false, as I have made the strictest inquiry into that matter; I cannot find that the small pox has ever been here, nor any where about here, except at Milford, which is about 3 miles distant from us, and not even there this 6 weeks, so that we must conclude that this base story was only told by some evil minded persons, whose principles were inimical to the grand cause of liberty, and with an intent to prevent our men from coming to Prospect Hill, that the enemy might have a greater opportunity to take the same, as it would be a very advantageous place for them.

NEW-YORK, August 17.

Several Gentlemen arrived here on Friday and Saturday last, that left the Camp at Cambridge the 7th and 8th instant: They confirm the different Accounts of several small skirmishes happening lately between the Ministerial and the Troops of the Twelve United Colonies of North America, greatly to the Advantage of the latter.

Some of the above mentioned Gentlemen came by Way of New London, and inform, that when they crossed the Ferry there last Wednesday, the Ministerial Fleet lay at Gardiner's Island, and were taking on board all the Stock they could find there; that they were informed they had been some Days before at Fisher's Island, where they got several Sheep, and 36 Head of Cattle; that General Wooster, with his Troops, had got as far as the Oyster Ponds, last Wednesday, where he found Col. Fanning, with a large Body of Men.

Tuesday's night, the first Division of Colonel M'Dougall's Battalion of Provincial Troops failed, under the Command of Lieutenant Colonel Ritzema, to join Major General Schuyler at Ticonderoga: They will soon be followed by the second under Major Zedwitz; and the Colonel is immediately to follow with the third and last Division.

By Accounts received (via Antigua) we are informed that the Dispatches with General Gage's Account of the Affair at Lexington, arrived in England on the 19th of June, 17 Days after those sent from the Inhabitants of Massachusetts Bay, by Captain Derby. And that the great Spanish Armament was met going to Algiers. The Vengeance of that Nation seems to be immediately levelled against their old Enemies the Mahometans, and to formidable is their Force in this Expedition, that it is generally imagined his Catholic Majesty aims at the entire Conquest of that Country, and annexing it to the Spanish Realm. It is the best Corn Country upon the Earth, was the grand Granary of ancient Rome, and is much healthier than any of the Spanish Dominions.

From Dutchess County we hear, That some Days ago, the Barn and Stables of Walter Livingston, Esq; of that place, were burnt down, supposed to be done by some evil minded Persons designedly.

Notwithstanding the Ministry did not think proper to publish the Account of the

Battle at Lexington till the 12th of June, we are well assured, that Matter reached their Hands by the first of said Month.

Sunday arrived here the Snow Favourite, Capt. Fisher, in 10 Weeks from Whitehaven, with 150 Passengers, all hearty and well.

Capt. Matthewman, from Coracao, informs us, that when he left that Place, there was then a Spanish Pirate on the Coast, who had taken several Vessels belonging to the English; others he ran on Shore, and some he plundered. There was then an Embargo on the Vessels in the Harbour, and several Privateers fitted out to attack him.

Samuel B. Webb, Esq; is appointed Aid de Camp to Major General Putnam.

We can inform our Readers from undoubted Authority, that some Merchants of this City, who had chartered a Vessel, to load her with Flax Seed, for Ireland, have altered her Voyage, rather than give Dissatisfaction to our Fellow Citizens. It is hoped other public-spirited Persons will follow their Example.

The following is said to be a copy of a letter from a gentleman of character in New-Haven, to his friend in this city.

"I have only a few minutes time to inform you by Mr. Alexander the Express, that General Gage has demolished the Castle, Mr. Hancock showed me a letter from a gentleman in Boston, dated the first of this instant, that General Gage had sent all his family to England; and that the whole army would leave Boston soon; 'twas supposed he would first destroy the town; the destination of the troops is not known, may it not be for New York? I hope our people will prepare; the author of the letter says, there are 2500 of Gage's men killed and died since the battle of Bunker's Hill; they have buried 30 Regulars a week for a long time. There are three men of war and eleven transports anchored at Fisher's Island Mr. Hancock showed me a letter from General Washington, which confirms the departing of the troops."

Extract of a letter from Philadelphia, dated August 12, 1775.

By the London Papers, (to the 10th June) we learn that about the 1st of that Month, 3 Transports from England for America, having on board Col. Dalrymple and Col. Grant the valiant (Swiss) master, about American Guardships) It is probable that one or more of these Vessels is bound to New York.

Yesterday arrived a Ship from Cork, with a Major French, of the 22d Regiment, a Lieut; and a Cadet; a Sergeant, a Soldier, and upwards of 40 Bales and Packages, all which are in the Hands of the Committee of Safety. The Officers were conducted to Town, from Gloucester Point, where they had landed, by Capt. Bradford's Company, and several Volunteers from other Companies.

The following is the best account we are able to collect, of the late Expedition of the Piratical Regular Troops to the English Constitution, and the British Colonies, in plundering, Fisher's, Gardiner's, Plum and Black Islands, of Stock Provision, &c.

The Design of the Regulars, to plunder these Islands, having been communicated to the Inhabitants and Proprietors by the Congress of New York, and other Intelligences, as early as Tuesday the 8th, there was Time to have taken off all the Stock; and some was actually taken off: But some Differences having arisen between the Proprietors and the Committees, concerning the Expence of the Business, before any Thing could be determined, the Ships of the Enemy appeared in Sight.—Dispatches were immediately sent to alarm and assemble the People on the Connecticut and Long-Island Shores, who, notwithstanding the utmost haste they could then make, were too late to prevent the Execution of the felonious Design of the Enemy; who on Friday the 11th, approached Gardiner's Island, with the following Vessels and Forces, viz. 7 Transport Ships, 2 Brigs, 2 Men of War, 1 Snow of 10 Guns, 1 Armed Schooner of 17 Men, and 200 Regulars, as reported by the Sailors, landed on the Island and assisted by 10 villanous Tories from South Hold, &c. took off the following Stock &c.

By the Account of Benjamin Miller, the Overseer,

1000 Sheep
30 Hogs
13 Cows
3 Calves
1000 lb. Cheese

7 Tons Hay were taken off, and much Damage done to Gardens Fences, Fowls, &c. When they went away, they left on the Table Half a Guinea and a Pintareen.

Signed by Benjamin Miller.

And attested.
The following Letter was left by the Commanding Officer, and given Reason to suspect that the Expedition (as to Gardiner's Island) was preconcerted with the Pro-

prietor, or Manager.—The following is an exact Copy, viz.

"S. R.

"As we have got loaded all the Vessels, I can't come to your House according to Promise, I send you Account of what I have got off your Island; Sheep, 823; Fat Cattle, 59; Cows, 3; Calves, 3; one of the Calves got away. The Cheese I will take Account of.—Send me some Pigs, Fowls, and Potatoes, and Ducks, and some Bread, and when you come to Boston, I will secure your Interest to you in my Power. I am very sorry it is not in my Power to come to your House, but so good a Wind we can't stay; the Hay you must send an Account of by Capt. Lawrence. Sin, I am your's,

ABIAH WILLIAMS.

Aug. 11th, 1775, 12 o'Clock at Night."

Besides the fore mentioned Stock from Gardiner's Island, we are informed that the same Crew of Free Booters, took from Fisher's Island, 26 Fat Cattle, and about 1000 Sheep; also from Plum Island, 14 Fat Cattle: At this last Island they had only one Prize Wood Boat and a Transport Brig. On their arrival and landing on one Side of the Island, they were fired upon by about 100 of Col. Wooster's Provincials, who had landed on the other Side. But it being represented to the Commanding Officer, that the Island was nearly surrounded by a Number of the Enemy's armed Vessels who would be likely to cut off their Retreat, they fired but one Volley, which did not appear to have done any Execution, and then retired to the main Land, when the 14 Cattle were taken off.

After these Exploits, 3 more Transports appearing in Sight, on Tuesday Morning the Rose and the Swan Sloops of War, failed to meet them, in order to make a Descent upon, and Plunder Block Island; the Success of which Attempt we have not yet heard.

It is the Opinion of good Judges, that only 200 Provincial Soldiers well posted on either of these Islands, would have repelled the Attack made upon it by the Regulars.

We have Advice from Huntington on Long Island, that on Wednesday Morning the 9th, 40 Volunteers from that Place, and many from the Parts adjacent, went off to join General Wooster's Forces, But that on the Way, being informed by false Intelligence, that they were too late, for that the Enemy had done their Business and were gone, they returned back, and on their Way, disarmed a Number of Tories at Southold, and lodged one of the most obnoxious (the Rev. Mr. Lyons) under Guard in Gen. Wooster's Camp.

The Number of Men who appeared to oppose these Depredations of the Regulars, is supposed to exceed a Thousand—with Whose Boats ready to have carried them to the Scene of Action: But being deceived by false Intelligence, and turned back, only one Company of about 40 went to Gardiner's Island, where they arrived in Time to see the Enemy under Sail, and in a few Hours after their Departure.

At a meeting of the freeholders of the county of Somerset, in the Province of New Jersey, assembled at the Court House in said county, on Friday the 23d day of July 1775, pursuant to advertisements of the late Committee of Correspondence.

HENDRICK FISHER, Esq; Chairman, JOHN LEFERTY, Secretary.

The said freeholders being informed that the late Committee of Correspondence for this county, expired the 15th day of July instant, and being convinced of the necessity of choosing a new Committee of Correspondence, for the county, DO RESOLVE, That a new Committee of Correspondence, to consist of seventeen persons, be chosen for this county, by Ballot. Adjourned for an Hour.

Met according to adjournment, when the following gentlemen were elected a Committee of Correspondence for this county, viz. The Rev. Dr. John Witherspoon, Jacob Bogart, John Galton, Giffert Bogart, Gabriel Ogden, Garret Voorhees, Cornelius Van Muliner, Thomas Berry, Stephen Hunt, Rowland Chambers, Matthew Ten Eyck, William Anania, Ruloff Van Dicks, Jacob Bergen, Hendrick Van Middlesworth, Lucas Voorhees, and Ephraim Tingley.

Resolved, That it be recommended, and it is hereby recommended to every township in this county, to assemble as soon as possible, and choose for their respective townships, nine persons to be a Committee of Inspection, to take cognizance of all violations of the measures recommended by the representatives of the people in their district:—And this county do further recommend, that every township Committee, do choose from among themselves three persons, who shall meet when called upon, with an equal number of persons from every township Committee, and form a General Committee of Inspection for the county, in case of an appeal, or when matters of importance require the sense of the county, or when a township Committee choose not to decide on a case by themselves;

Resolved, That the Chairman of the late Committee of Inspection for each township, do notify a meeting of the inhabitants of their township, for the purpose of choosing the aforesaid Committee of Inspection.

Resolved, That this county do earnestly recommend to, and they do hereby instruct their Committees of Inspection to be vigilant and active in the discharge of their duty, in taking cognizance of every person of whatever rank or condition, who shall, either by word or deed endeavour to destroy our unanimity in opposing the arbitrary and cruel measures of the British Ministry, and to deal with him or them, as to the particular Committee of Inspection where the offender resides, or to the General Committee of Inspection, if an appeal or other reason require the same to be called, shall seem most conducive to prevent any injury to the glorious cause of American Freedom.

Resolved, That the Committee of Correspondence above chosen, and the Committees of Inspection to be chosen for the different townships of this county, do continue until the first Monday in May next, after which the Chairman of the Committee of Correspondence shall within three weeks call a meeting of the county, and in all cases when it shall be thought necessary to have the county assembled, the Secretary is hereby authorized and directed to give as public notice thereof as possible, and this county do agree to defray the expences thence arising.

Ordered, That the foregoing Resolves and Proceedings, be published in one of the New York News-Papers.

A true Copy from the Minutes, JOHN LEFERTY, Secretary.

WILLIAM BEDLOW, Chairman, New York 16th August, 1775.

IN PROVINCIAL CONGRESS.

New York, August 12th, 1775.

WHEREAS this Congress did, on the 9th day of June last, Resolve to allow a Bounty of Five Pounds on every Hundred Weight of Gunpowder, which should be manufactured in this Colony for one Year from the date hereof:—And Whereas in consequence of said Bounty, the Manufacturers of Gun Powder are enabled to encourage the Manufacture of Salt Petre, by allowing an advanced price for it.

Resolved therefore, That the price of Good and Merchantable Salt Petre, which shall, or may be made in the Colony, before the first day of October 1776, be stipulated and fixed at Half a Dollar per Pound; at which price, this Congress will buy, on Account of the United Colonies, all that the respective Manufacturers cannot dispose of to the Manufacturers of Gun Powder, during the time aforesaid.

IN PROVINCIAL CONGRESS.

New York, August 16, 1775.

WHEREAS agreeable to a Resolution of this Congress, the Mayor and Magistrates of this City have been requested to procure a Barge, to be built for his Majesty's Ship Asia, to replace the one lately destroyed; and this Congress being informed by the Mayor that the Carpenter in this City declining undertaking to build the said Barge, being apprehensive from threats, given out by some persons, if they should undertake, to build the said Barge, not only that the same may be destroyed, but that their Persons or Property may be injured or insulted.

Resolved, That all Persons who have given such obstruction by threats, to the execution of the aforesaid Order, or shall hereafter by threats or violence, oppose the same, ought to be considered as factious, disorderly members of the Community, and as guilty of a dangerous attempt to destroy the authority of this Congress; and to render them contemptible.

Resolved, That for the purpose of effectually carrying into execution the said Order, and to defeat the malicious design of such as dare to condemn or oppose the authority and orders of this House, Mr. Henry should be ordered immediately to set about building a proper Barge for the said Ship Asia, and to furnish her with all possible dispatch, and that Col. Lasher be ordered to furnish a full sent Guard, (who are to be relieved at the discretion of the Colonel) to protect the said Barge whilst building, and to see her safely delivered for the use of said Ship. And the Magistrates as well as the other Justices of this City, are requested to give all necessary aid in this business, that it may be known, whether a few ruffians and selfish Individuals out of doors, or the Representative Body of the Colony in this Congress, are to check the measures for our Public Safety, at this dangerous and critical juncture.

Resolved, That if any Person or Persons shall be found threatening or attempting to destroy the said Barge, they be taken into Custody by the said Guard, and detained till the Order of this Congress shall be made, respecting them.

LIBERTY TREE. A new Song Tune, The Gods of the Greeks.

IN a chariot of light from the regions of day,
The Goddess of Liberty came;
Ten thousand celestial directed the way,
And hither conducted the same.
A fair budding branch from the gardens above,
Where millions with millions agree,
She brought in her hand, as a pledge of her love,
The plant she named, *Liberty Tree*.
The celestial exotic fluck deep in the ground,
Like a native it flourish'd and bore,
The fame of its fruit drew the nations around,
To seek out this peaceable store.
Unmindful of names or distinctions they came,
For freedom like brothers agree,
With one spirit endued, they one friendship purposed,
And their temple was *Liberty Tree*.
Beneath this fair tree, like the patriarchs of old,
Their bread in contentment they eat,
Unworn with the troubles of silver and gold,
The cares of the grand and the great.
With timber and tar they Old England supply'd,
And supported her power on the sea;
Her battles they fought, without getting a groat,
For the honour of *Liberty Tree*.
But hear, O ye Swains, ('tis a tale most profane)
How all the tyrannical powers,
King, Common, and Lords, are uniting amain,
To cut down this guardian of ours;
From the vast to the west, blow the trumpet to arms,
Thro' the land let the sound of it see,
Let the far and the near—all unite with a cheer,
In defence of our *Liberty Tree*.
